

## SLIM KOMBAT with HALO Air Cap

### Kevlar fibre & magnesium technology

#### Features & benefits

Superb atomisation for all industrial and furniture coatings. All new HALO air cap provides superior performance levels in terms of paint atomization, pattern size and quality of finish. Light weight for effortless spraying.

This is the new **SLIM KOMBAT**, 345 grams of technology, performance and reliability.

- Light weight Kevlar fibre and magnesium body – just 345 grams.
- Anodized aluminium air cap.
- Stainless steel fluid nozzle, needle and springs
- Seals & gaskets: self-lubricating PTFE Teflon
- Can be used with all PPS systems.
- Spare parts and lubricant included.
- Supplied in rigid case for storage.

#### Performance and Specifications

- Gravity feed nozzle sizes: 1,0 - 1,3 - 1,5 - 1,7 - 1,9 - 2,2 - 2,5
- Operating air pressure: recommended: 2 bar (29 psi)
- Air consumption: 265 l/min at 2 bar (9 cfm at 29 psi)
- Item Code: 8081xx-3/8 (add nozzle size e.g. 1,3)
