

Rethink the sink with the **Rocket.**

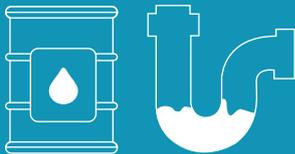

Easily wash your brushes, rollers, plaster and tiling tools anywhere with the new Washbox Rocket.

Rethink the sink with the **Rocket.**

A closed-loop mobile washout that recycles water again and again. **No hookups, no wasted time, no wasted water, and no waste discharged in our oceans.**

ELIMINATE THE PLUMBING CONNECTION HASSLE AND COSTLY BLOCKAGE

A single 40-story building can spend over \$40,000 on temporary plumbing for trades washout. Washbox removes the need for drums and saves you money, while reducing waste.

INCREASE PRODUCTIVITY OF YOUR SUB TRADES

Instead of your team constantly installing and removing temporary plumbing, Washbox offers a fast, efficient setup, letting your crew focus on more important work.

DOESN'T POLLUTE, SAVE WATER AND SAVE MONEY

Washbox keeps you compliant with trade waste regulations, cuts precious drinking water usage - lowers your bills too - and keeps harmful runoff out of our oceans.

Efficient, Mobile and Easy to Move!
